

Community Nursing Division

Transforming Healthcare

Nursdoc understands the significant challenges faced by community nurses who have been described by the RCN as “pillars of the community”.

Our healthcare professionals are skilled in providing care to patients at all levels. We understand that good community nurses are some of the most in demand professionals in the UK and that it is sometimes challenging to maintain sufficient cover during peak times.

We would like to help your unit deliver safe levels of care and have available to you professionals in the following areas:

- Community Nurses
- District Nurses
- Health Visitors
- School Nurses
- Community Mental Health
- Nurse Practitioners
- Practice Nurses
- Custodial Nurses

Nursdocs experienced team will work with you to source the right healthcare professional with the skills requested sometimes at short notice. We believe that this option gives you the important flexibility to react to changing circumstances quickly and effectively.

Nursdoc is able to fully tailor its service to meet the changing demands of our clients by offering:

- Access to a large database of experienced and compliant community based professionals
- Office based “on call” service available 7 days a week.

Working with Nursdoc couldn't be easier:
